Challenges faced by HushPro Consulting as a startup security firm
General problems facing startups
Occupational health & Safety challenges
Security sector problems
Lack of Initial Capital
Shallow pool of hirable quality security operatives
Loss of life & limbs
Emotional distress due to stress & the high risk nature
Lack of up-to-date security gadgets & procedures
Company's environment sorely lacking in security consciousness
Complicated Governmental registration bottlenecks
Security employees not committed to the work and being susceptible to bribes
Exorbitant Government registration fees
Huge capital needed for importation of much needed security gadgets
Company's immediate environment's unwillingness to invest in security
High cost of insurance for company workers
Unwillingness of banks to invest in a volatile security sector
